Movies Visualization

1. Laleh ROSTAMI HOSOORI
2. Sreynoch SOUNG
3. Nhu Quynh NGUYEN

18th Jan, 2017

Visualization Objectives

1. Easily recognize **high ranked movies** and their **continent of origin**

2. **Filter** the movies by one or multiple:
   a. Country
   b. Director
   c. Genre
   d. Title
   e. Year
   f. Score

3. Get the **detailed information** of each movie
   a. **Score distribution over the critic continents**
   b. Exact score, Title, Director, Release Date, Genre, Country

Demo

Answer to questions:

1. What are the **top 100 movies** in BBC rankings according to the total score they got from the critics?

2. What are the **total score** and **release date** of each movie among **all movies** rated in BBC rankings?

3. What **continent** each movie is from?

4. What are the **information details** of each movie?
   e.g. title, director, year, genre, country, exact score, released date

5. What is the **score distribution** of each movie over the **critics of each continent**?

6. What are the movies by a **country** (or more), **genre** (or more), **director** (or more)?

7. Which movies are made in a specific **range of years**, **range of scores**?
